HOSPITAL IS CLOSED | PICK MISS GRIMSBY

Nixon Hall Which Has Served Temporarily For Over 14 Months Discharged Last Patient On May 7th—Over 1,000 Patients Including 288 New Born Babes Passed Through Its Portals.

On May 7th at 1:30 p.m., Nixon Hall discharged its last patients, a mother and babe, thus terminating a period of temporary hospital service which was set up on February 24th, 1948, following the disastrous fire.

Resumption of service is planned for July 1st, 1949.

During the past fourteen and a half months, one thousand and ten people were admitted for hospital care, two hundred and eighty-eight of these being infants born at Nixon Hall.

The period of transition has arrived, when furniture must be dismantled, repaired and refinished for use in the new building; when inventories of assets are compiled and additional supplies are incorporated for the more extensive service to be offered by the new West Lincoln.

As we go over our stock of furniture to be refinished, we find many articles reminiscent of the old golf club, and later the old hospital. Your Ladies' Auxiliary is spending many hours in planning.

TELEPHONE DIRECTORY BEING SUPPLEMENTED

On And After Next Sunday Winona Numbers Will Be Split With New Stoney Creek Office.

The new dial telephone numbers for the Stoney Creek exchange are listed in a directory supplement coming through the mail this week to Bell Telephone subscribers in Stoney Creek, Winona and Grimsby, according to H. T. Stewart, Bell Telephone manager for this region.

The supplement also contains the revised Winona section of the Hamilton directory, which omits a large section of listings that will be cut over to Stoney Creek on May 15. It also contains more than 50 changed listings resulting from reducing the number of users on certain rural lines. These changes take place when the Stoney Creek exchange opens.

Because of the large number of

LIEUT.-GOVERNOR WILL PAY VISIT TO WINONA

Will Officially Open New Legion Hall And Unveil New Addition To Saltfleet War Memorial.

Winona is to be honored with the presence of the Lieutenant-Governor for Ontario, the Hon. Ray Lawson, who, accompanied by Mrs. Lawson, will officially open the Legion Hall at Winona, on Sunday, June 12.

The building, a former structure at the Hamilton Trade School, was moved to its present site at Winona, and an extensive remodelling programme has transformed it into a very fine hall for the Legion. Of course, will be available for the many community enterprises sponsored in this community.

GRIMSBY GIRL TO BE MAY QUEEN

St. Thomas, May 5—Jean Jarvis, daughter of Mr. and Mrs. Tennyson Jarvis of Grimsby, has been chosen as the 1949 Queen of May by the students of Alma College.

Her counsellors will be Mandy Gilies, daughter of Mr. and Mrs. J. Harold Gilies, London, Ont., and Miss Phyllis Stevenson, daughter of Dr. and Mrs. G. Stevenson, London, Ont. Miss Mary Jane Girardin, daughter of Mrs. Leila Girardin, Leamington, was elected Lord of May.

The queen will be crowned at the annual festival to be held May 21.

(Continued on Page 12)

Beautiful girls midst beautiful blossoms. Difficult indeed was the task of the judges in selecting a winner from the six lovely Grimsby girls appearing in the photo above. All six took part in the Optimist Club preliminary at the Village Inn Supper Dance last Saturday. The winner was crowned by Mayor Clarence Lewis after the judges had selected Miss Beatrice Demerling, third from left, as Miss Grimsby. The girls are, from left

to right: Carol Baxter, Joyce Byford, Bea Demerling, Olga Treschuk, Gloria Jarvis and Ruth Clark. Miss Demerling will compete for the Blossom Queen title against girls from Hamilton, St. Catharines, Niagara Falls, Welland and Port Colborne, this Friday night at the Optimist Blossom Time Ball at the Village Inn. Miss Canada will be on hand to crown the Blossom Queen.

WILL IMPROVE BEAMER PARK

BLOSSOM MOTORCADE TO TOUR PENINSULA

Blossom Queen And Her Entourage Will Lead Parade On Sunday Afternoon—Police And Motorcycle Escort.

Legislators Consume A Lot Of Time But Transact Little Business—Will Amalgamate The Two Water Systems—Will Again Request A Lowering Of Rates From Water Commission.

The May meeting of the North Grimsby Township Council was a snappy affair, taking up two and a half hours of more or less valuable time. During this interval very few items of any consequence came before Council, and it would appear that the Township is practically running itself.

Perhaps the biggest feature of the meeting emanated from the correspondence file. A letter drafted by Andy Henderson, superintendent of the Grimsby Waterworks, who recently completed an inspection of Township hydrants, showed that although most hydrants were in fair working order, two hydrants, one at the corner of No. 8 and Baker's Road, and the one immediately east of this point were not working properly. Mr. Henderson's letter recommended that these receive immediate attention, and further intimated that these same hydrants had been reported as being inefficient in October, 1948. No action apparently had been taken at that time.

No longer will the Township water system be broken in two separate systems. A motion by Bartlett and McNiven, recommended that the clerk take immediate steps to consolidate the Township East End and West End Water Systems into one Township Water System. This move will cut down on backtracking, and make matters considerably more flexible all the way around.

Council decided not to set the rates for water at this time, these will probably be set after a meeting.

The queen will be crowned at the annual festival to be held May 21.

LEGION SPORTS DAY IS ON VICTORIA DAY

Fine Array Of Athletes Being Lined Up For Long List Of Events—Outstanding Performers Will Compete.

There is every indication that the Track and Field Meet and Road Races being held at Grimsby High School grounds by West Lincoln Branch, No. 127, Canadian Legion, on May 24th, will be an outstanding event.

Sanctioned by the Southwestern Ontario Branch, Amateur Athletic Union of Canada, and the only such sponsored program to be held in this part of the province on that date, it is attracting widespread interest among athletes from Toronto, Hamilton, London, Niagara Falls and other Ontario centres.

Inquiries about entries have also been received from Brooklyn and Leamington, was elected Lord of May.

MORE NEW TEACHERS FOR GRIMSBY SCHOOLS

Junior Optimist Club Granted Use Of Gymnasium—Cadet Inspection Will Be Held Friday, May 20th.

The monthly meeting of the Grimsby Board of Education was held in the High School library, with all members present.

A letter from Inspector W. A. Marshall, secretary of the consultative committee was read, announcing a meeting in the Grimsby Council Chambers Tuesday, May 10, at 8 p.m., for the purpose of making final arrangements for the establishment of a High School District in West Lincoln. Inspector B. D. Randall, of the Secondary School branch of the Department of Education, will be present.

The hope was expressed that every municipality concerned would be represented both by members

(Continued on page 5)

NEW BUILDINGS ARE UNDER WAY

Excavation Work For New Addition To Trinity United Church Is Going Ahead Fast—Work Has Been Started On Large New Two Story Building On Old Hewson Basket Factory Site.

Big construction work is under way in Grimsby in a big way. Powershovels and trucks are working in all directions. From now until Autumn Harvey Shafer will be the busiest man in the Niagara Peninsula.

At Trinity United Church work was started last week in preparation for the commencement of construction of the new addition to the church. 32 of the old graves were opened and the bodies transferred to another part of the cemetery. George Konkle of Beamsville, felled three of the large pine trees and removed the stumps.

On Monday Ed. Farrell, his power shovel and his trucks moved in and excavation work was started on the big hole that will eventually be the basement of the new building.

On Monday work was started clearing the site of the old Hewson basket factory, razed by fire in February of 1948, in preparation for the erection of a new building.

Tons of broken concrete and stone were hauled to Lions Park and strewn along the creek bank to form a bermwall. 100 loads of earth from the church job is also being dumped in the park.

The new Hewson building will be two storeys—30 feet high and will be glass, built of concrete blocks and stucco with plenty of plate glass in the upper storey which will have direct entrances from Main street. The entrance to the lower storey will be below the Main street level.

Shafer Bros. have the general contract for both jobs.

NEW DENTAL SERVICE TO BE ESTABLISHED

All Costs Will Be borne By Lincoln Health Unit—Mobile Trailer Will Visit All County Schools.

A new preventive dental service, under the direction of the St. Catharines—Lincoln Health Unit, will commence this summer, Dr. D. V. Currey, Medical Officer of Health for Lincoln County, said last Friday. Cost of the service is entirely borne by dominion-provincial grants, and no expense in connection with the new service will be charged to the St. Catharines—Lincoln Health Unit.

A director with special training in preventive dental work will be hired, along with what assistants he will require. The service will have a mobile trailer, fitted out with needed equipment, as part of its facilities. The trailer will go to schools throughout the county, where a complete check of all students will be made. While the cost of the preventive phases of the work will be free to schools and municipalities, should they so desire they can arrange treatment by paying these costs from their own

ROMAINE K. ROSS.

Ben Demerling, Popular "Little Blue Bell" At Local Office Selected After Stiff Competition From Five Other Contestants—Represented The Jaycees—Will Compete For Blossom Queen Crown Tomorrow Night.

Six lovely Grimsby girls came before the admiring eyes of a packed house at the weekly Supper Dance in the Village Inn Saturday night, and after considerable deliberation the capable panel of judges announced that Beatrice Demerling should be crowned Miss Grimsby for 1949. She will represent this Town in the contest for the title of Niagara Peninsula Blossom Queen this Friday night at the Optimist Club Blossom Time Ball which is receiving wide interest throughout southern Ontario.

The six entrants were Ruth Clark, Carol Baxter, Olga Treschuk, Joyce Byford, Gloria Jarvis and Bea Demerling, and certainly they comprised a very beautiful group of girls, and made the judges' decision a difficult one to make. Judged for natural beauty, personality, talent and health, Miss Demerling was chosen, with her charming personality being a deciding factor. She was crowned by Mayor Clarence Lewis, who along with Mrs. Lewis took a part on the panel of judges.

Miss Demerling was sponsored by the Grimsby Junior Chamber of Commerce, and when the decision was announced, the many Jaycees in attendance gave out with a royal reception as did the entire crowd, as the judges' decision appeared to be a popular one.

Now Miss Grimsby will have to be at her best as she competes

(Continued on page 5)

STONEY CREEK OPENS NEW EXCHANGE SUNDAY

Dial System Will Be Cut In During Night—Will Relieve Much Telephone Congestion In This Area.

When Aladdin rubbed his magic lamp a genie promptly appeared to do his bidding. Actually there is nothing magic about the modern telephone dial, but after the cut-over to dial in Stoney Creek next Sunday, telephone users might well gain the impression that they have a genie at their service when they turn the dial.

It is an intricate mechanical genius that can pick out any one of the possible connections between the telephones served by the Stoney Creek exchange, when the turning dial gives it the correct orders.

Many minds and many hands contributed to the invention of the dial switching equipment which will perform this complicated task.

Because the task is complicated, the equipment itself is complicated. Although many of the components can be mass-produced, an exchange must be made to measure for the community it is going to serve.

FRANK FAIRBORN, JR.

True independence is never afraid of appearing dependent, and true dependence leads always to the most perfect independence.

The Fruit Belt Through Other Eyes

(An Editorial in The Elora Express)

Last autumn, when the fields were harvested and the peach trees dripped with sweetness while the grape vines hung heavy with their juicy clusters, we travelled the Queen Elizabeth road toward the Falls and marvelled at the richness of this, the garden spot of Ontario. Nothing, we felt, could be more beautiful.

And then, a little over a month later we drove over it again. The trees were bare then and the day was dull gray. Only a few hunters and an occasional fisherman lent life and color to the wayside and we knew that indeed winter was hard on our heels and the gardens would soon be covered with the blankets and quilts of snow and frost which would protect them against the day of awakening.

And last Saturday we were almost present for that awakening. All along the highway the new green of springtime was color-

ing the roadside. Now and then a burst of dandelions was like the sun breaking through the clouds and the white blossom of some of the shrubs in the Department of Highways arboretum was fresh with promise of the new season. Garbed black swallows in the vineyards waited only the touch of the fairy spring to transform them into pale green princesses. Indeed the faint tinge of verdure was already upon them, while here and there a square of pink or white blossom anticipated the day soon to come when the whole peninsula would celebrate Blossom Sunday.

And dozens of fishermen dangled hopeful poles in the waters along the way while family parties picnicked on the shores of Lake Ontario. And the tourist places were dusting off their wares while cars and buses whizzed by on their way to Canada's most famous show place, Niagara Falls, where the honeymooners have taken over for more than a century. It was spring on Saturday in the Niagara Peninsula.

heavy industry, that would be an enormous advantage. For the citizen there would be a real holiday, a chance to get away from the daily routine. As it is now Tuesday, May 24 will not be a holiday at all, but merely an interruption, a day when one does not go to the office, shop, or factory.

There doesn't seem to be one single reason why all national holidays should not be celebrated on a Monday. The advantages for everyone are all on one side. Here is one place where a little genuine co-operation of municipal, provincial and federal governments could solve a problem instantly.

FIRST SOCIALIST

Columbus was the first Socialist, according to a political joke enjoying a wide circulation in Britain.

Here is why:

He embarked on his journey without knowing where he was going. When he got there he didn't know where he was and when he returned he didn't know where he'd been.

And he performed the whole operation on borrowed money.

A WEAK ARGUMENT

"It is not conceivable that a Conservative party with only 69 Members at present would double its strength in a single election so as to have an over-all majority." This statement emanates from a Liberal organ as election propaganda. It runs counter to general election records.

In 1921, the Conservatives returned only 59 Members; it was a debacle, post-war anti-conscription reaction when Quebec voted almost unanimously against Meighen; in 1925, under the same Mr. Meighen, the party came back and won 116 seats, more than double 1921. In 1930, Bennett went into the campaign with 88 seats; he came out with 140 and over.

If the Progressive Conservatives double their strength from the last Parliament they would have quite sufficient to govern the country with a majority, even with Newfoundland seats added.

Perhaps the biggest sham of all in claims for seats to be won in the general election is that by the C.C.F., the leaders of which talk about forming the official Opposition in the next House, as the party of second choice. The C.C.F. has only one seat east of the Ottawa River; it has gone down grade in Saskatchewan, where there has been a C.C.F. provincial government, and the socialist experiment has been a big flop.

The C.C.F. propaganda is obvious enough; it is an attempt to discount George Drew, a clear recognition that the Progressive Conservatives rather than the Liberals are the arch-enemy to be combated, if the C.C.F. is to survive at all as a political entity in the national arena. By the same token, there is tacit admission from the C.C.F. that it has no hope of forming a government.

The Conservatives are on the attack and on the march. Remember Digby-Annapolis; Nicolet-Yamaska.

PIPES FOR WOMEN

O tempora, o mores! The pipe craze has taken hold on British women and it looks like lead-lease from the United States, according to the Fleet Street correspondent of The Ottawa Journal. He reports that the woman's pipe is an attractive-looking trifle, very well finished with a miniature bowl and a stem somewhat shorter than that on a man's pipe, and it is made in a variety of woods.

Tobacconists in Bond Street and Piccadilly, who are offering it for sale, say there is no great demand for it at present, except by visitors to London from overseas, who buy it as a souvenir. It costs from 15s to 25s. Actually, a number of women in England do smoke pipes, although not openly. Many of them were introduced to the pipe in America when attending conferences there or paying business visits. Some business women in the Dominions also smoke pipes, but, as with London business women, not in public.

Automobile salesmen on Main Street have a real answer now when an irate customer yells "where's my new car?" He simply answers, "ask the strikers." That one was contributed by a curly-headed sales and service girl.

If that Main Street stoplight had not been working on Sunday the preachers would have been sermonizing to empty pews for their worshippers never would have been able to cross the street to get to service. Or any place else.

Overhead in front of the Grimsby Meat Market, Two matronly ladies conversing. One was heard to remark, "If the girls wear much less than there are a lot of ladies' wear stores in this country going to go out of business." Too true.

I often wonder where Peggy O'Neill will park the hundreds of cars that visit The Village Inn at one time if Hannah ever sells off that big lot to the west of the inn and a building goes up. The "Rascal" is sure packing them in.

First thing Grimsby knows its Chief Magistrate is going to be known throughout the Dominion as "The Flying Major." He winged his way to Calgary last Sunday night and winged back to Grimsby Wednesday night. His Worship is doing a lot of flying these days in connection with his ever enlarging business.

Wee Willie Hewson sure has the knack of turning nothing into something. After the disastrous fire of over a year ago he took the west end of the old coal shed at the Forty Bridge and turned it into a mighty fine looking, palatial office. Now he has taken the rest of the shed and is rapidly transforming it into one swell show and sales room.

Cease thy incessant chatter about all traffic records being broken. The all time record for traffic in the Fruit Belt was made on Blossom Sunday, 1929, when an average of 2,300 cars an hour for 16 straight hours passed a given point. That record for Number 8 highway never will be broken as the Queen Elizabeth now makes it impossible to break it.

War has been declared on Paton Street. That Ace Agriculturist, Red Graham, purchased himself 15 cabbage plants and planted them carefully in Mother Earth. Then along came Tommy Rabbit and had a feast, then he came back and had another feast and still a third feast. Result: Red is down to five plants. He is now sleeping daytime and sitting up nights in the middle of the "farm" with a shotgun waiting for Tommy to come back for the other five plants. What does Chief James say about this discharging firearms within the town limits.

Mobile Columns of Army Equipment and Vehicles will arrive in Grimsby 1100 hours, Tuesday, May 17, and will make a tour of the Town and will be parked on Depot Street until 1 p.m. or 1300 hours, for inspection by the General Public.

C. W. LEWIS, Mayor.

GOD SAVE THE KING.

Mobile Columns of Army Equipment and Vehicles will arrive in Grimsby 1100 hours, Tuesday, May 17, and will make a tour of the Town and will be parked on Depot Street until 1 p.m. or 1300 hours, for inspection by the General Public.

Taking Saturday as a yard stick, the summer business rush in Main Street stores has started.

Milk has gone up in price. That doesn't worry me a bit because milk doesn't come out of a tap.

Who cares whether there were any blossoms or not. Grimsby girls are all queen blossoms or no blossoms.

That hot spell last week proved that all the blossoms in the Fruit Belt do not grow on trees. The gals were parading in shorts.

I would like to have the Blossom Sunday "Take" of the local restaurants and The Village Inn. I would take all my widows for a long holiday trip.

Wanted—One prognosticator who can tell exactly on what date each May Blossom Sunday will fall. Apply in own handwriting to The Grimsby Optimist Club.

Tongue street in Toronto at its heaviest never had anything on Main Street on Sunday. We sure were in the big city class as far as traffic is concerned.

I got an awful shock the other day. The Village Baker called up and said, "you have no overdraft in fact you have a balance of \$1.37." The staff hurriedly called "Doc" McIntyre.

It pays to advertise in The Independent. Thanks to a lady friend who read our complaint of two weeks ago, I received a bag of peanuts last week that actually had salt on them.

Automobile salesmen on Main Street have a real answer now when an irate customer yells "where's my new car?" He simply answers, "ask the strikers." That one was contributed by a curly-headed sales and service girl.

If that Main Street stoplight had not been working on Sunday the preachers would have been sermonizing to empty pews for their worshippers never would have been able to cross the street to get to service. Or any place else.

THE GEORGE DREW I KNOW

(By GRATTAN O'LEARY, distinguished journalist and lecturer, is a Canadian of Irish descent. Starting his newspaper career in 1911, he is today one of Canada's best-known writers and commentators.)

To understand George Drew and his impact on our times a knowledge of his background and personality is essential.

His background is one of training for government.

John Morley held that no man was fit to govern without serving an apprenticeship to politics. By that test George Drew qualifies as perhaps the best trained politician in our public life. Government, from early youth, has been his hobby and his career, his work and his recreation, his all-absorbing interest and passion.

Of United Empire Loyalist stock, he was cradled in politics. His father, John Drew of Guelph, Ontario, was a prominent Conservative lawyer, and his grandfather, George A. Drew, Q.C., M.P., a member of the first Parliament of Confederation. While still in his twenties George Drew, who used to be driven to political meetings when he was ten years old, was the president of Guelph's Chamber of Commerce, one of its aldermen, later its mayor.

Canadians often lament that the best of our youth shun public life.

GEORGE DREW

PHONE 444

look instead to richer monetary prizes of the professions and business. George Drew was an exception. Graduated in law, he would undoubtedly have become a leader at the bar. Instead he chose politics, the less rewarding field of public service.

And public service for George Drew meant service in peace or war. When war came in 1914 (he joined the militia at 16) he put on a uniform, joined the 16th Field Battery, Royal Canadian Artillery—the unit of John McCrae, who wrote "In Flanders Fields"—fought in France, was wounded in the arm, stopped a piece of shrapnel and was paroled when sent him back to Canada.

He came back to public service. Giving unstintingly of his pen to

chronicling and defending Canada's war record, telling the tale of the valor of our airmen, and entering the controversy over war debts, he served successively at the time as Assistant Master and Master of the Supreme Court of Ontario.

By 1928, George Drew was leader of the Ontario Progressive Conservative Party. Five years later he became Ontario's Prime Minister. In that post he remained until, in October last, a democratic convention of the Progressive Conservative Party of Canada selected him as National Leader.

George Drew's Premiership of Ontario was distinguished, marked by achievement. He gave Ontario the best government it had known since the days of James Whitney.

He built a civil service, secure, able, free of the tyranny of patronage. He introduced labour legislation which, by common consent, was among the most advanced in the world. He promoted agriculture actively, conserved forests and helped mines. His financial administration was honest and sound. And he was, admittedly, the best Minister of Education Ontario has known.

What of George Drew, so much now in the public spotlight, in his new sphere? This man who, in so few months, has revitalized his party, given Parliament new life, shown in three by-elections that he has the "know-how" of Victory? What are his political beliefs, his aspirations, his main characteristics?

George Drew is forthright, wholesome, without "sides" or pretense. He is free of pedantic snobbery; does not practice the loose jargon which is neither eloquent nor accurate.

Most of all, he shuns the double-talk which has confused and cursed our politics during the past two decades. We have lived under the stupefying influence of public men who could both see a thing and not see it at one and the same time; who seemed to believe that two opposite propositions could be asserted with equal truth, that affirmation is only a form of denial, and that "to be" is the same thing as "not to be."

From George Drew there will be no humbug. No one will ever be in doubt as to where he stands; in place of the intellectual drug of "being all things to all men" and "for everything at the same time" he will give us honesty; straight talk instead of double-talk.

He makes no claim to omniscience, and is the first to admit his mistakes; but he could add, with the record to support him, that invariably he rose above them—and add as well that if he sometimes lost battles he contrived in the end to win most of his campaigns.

He has been assailed for his "pugnacity." The indictment, mostly from his enemies, is a tribute to his earnestness, to the passion he puts into convictions. He has had his share of quarrels and tumults. But as a fighter he has not the temper nor cold cruelty of disposition that takes pleasure in inflicting hurt. It is the sincerity of a man who has no respect for "half-believers in causal creeds," who believes in fighting with all his power for causes he thinks right.

He has been charged with arrogance; pictured as intellectually arrogant. He believes that the closer government is to the people, the better will it be.

He fights always with courage. It is not the blind dash of the recklessness or the buoyant courage of the sanguine. It is the courage which faces trouble without faltering when it comes—the sort of moral stamina which made him fight his Hong Kong battles alone, which carried him through the Bren gun

controversy, which carried him undaunted and unshaken when a vengeful government in war threatened him with prosecution, and when the cry of most people, a time of propaganda, was "shush! George Drew knows what it is—and what it takes—to fight alone.

Socialists, and some Liberals who ape them, say that Drew is a "reactionary." If to champion provincial rights against a centralized state is "reaction"; if to provide for workers (as he provided for workers in Ontario) the best law our code makes country be "reaction"; if to become the symbol of Canadian resistance to Communism be "reaction"—then George Drew could plead guilty.

Actually, Drew is a progressive conservative in the best sense of the words: one who would say with Bacon that is "as well to create good precedents as to honour old ones"; who repudiates Socialism and all its false creeds, but who at the same time understands that a just minimum of well-being is an individual right in society.

He has become the target for vilification by our Communists, our crypto-Communists, our Socialists, our "fellow travellers." Their hate is understandable. Long before World War II George Drew went to see Russia and Germany for himself; studied their systems; came home to warn of their peril, of the danger of their poison spreading over the earth. No one in Canada has done as much as he has gone to expose the evils of both Red and Black Fascism.

Widely travelled, deeply read, versed in the story of both tyranny and liberty, he knows the peril which lurks for our country in the grisly terror, the lying propaganda, the blinding, suffocating tempest of falsehoods, deceit, confusions and doubts which today demands upon all like a poisonous vapour.

Today, as all through history, the challenge is for leadership—leadership that will summon men from indecision and doubt, sustain solent. The opposite truth is that he has disarming humility, is eager always for advice, and that he has more awareness of the need for teamwork and co-operation. He is a leader who knows his mind. He could never be an autocrat.

It is a fact, which can easily be verified by the record, that as Prime Minister of Ontario he held more cabinet meetings and with greater frequency than ever before

in the history of that or any other province. No policy decision was ever arrived at in Ontario, in the years 1943-48, without full discussion and approval by the members of the Cabinet—to which fact they are all witness.

No Canadian public man has so understanding of democracy, so greater love for it. It is this understanding, this devotion to democratic ideals and methods, which explains his position on Dominion-Principals relations.

in resistance to federal encroachment on provincial rights we never on a basis of dollars. When he fought for was the spirit of confederation. Its truth and first gems. What he fought against was possible loss of the right of people to administer their own affairs to have a stake in, and responsibility for, their government. Their courage, lift up their eyes to peaks ahead. The demands upon all of us during coming years, upon adaptability, the courage and intelligence and unity of the nation, may be as great as any made by the war, while the task of eliciting these qualities may be more difficult.

If therefore this country is to live at the top of its powers, if it is to triumph and triumph over perils that must beset its path, if, in short, it is to apply the truth that a country worth dying for is also worth working and striving for, it must turn to the vision and vigorous courage of George Drew.

SENSATIONAL ROBBERY

The most sensational grave robbery to occur in the United States was the removal of the body of A. T. Stewart from the churchyard of St. Mark's-in-the-Bouwerie in New York shortly before dawn on November 7, 1872. As Stewart had been a multi-millionaire, the ghosts of the body, carrying on their correspondence with a representative of the family through the personal columns of a newspaper. After negotiations lasting two years, the thieves agreed to accept \$20,000 if the messenger would meet them alone on a certain country road at three o'clock on a certain morning. At the brief meeting, the messenger suddenly handed over the bag of money and received the bag of bones from three masked men whose identities were never learned.

Protect your 1949 Crop with ALCAN GRADE HYDRATED SPRAY LIME

Lime-Sulphur Sprays and Bordeaux Mixtures prepared with Acan grade Hydrated Spray Lime will do a real job in orchard or vegetable farm.

Alcan Spray Lime

- has no grit to plug the spray nozzle
- is extremely fine—spray sticks to the leaves
- contains 10% magnesia. Corrects magnesia deficiency by penetrating pores of leaf

Result—brighter, greener, healthier foliage and above average crop yield.

Place your order for ALCAN grade Hydrated Spray Lime now and be ready for spring spraying.

IMPORTANT NOTICE

TO STONEY CREEK TELEPHONE USERS

Early Sunday morning, May 15, Stoney Creek's new Dial Telephone System will go into operation.

From that time on, subscribers will place calls by dialing the desired number instead of giving the details to an operator.

After the change-over Sunday morning, please remember:

1. Always make sure of the number by first looking it up in the new supplementary directory.
2. Use all possible care in dialing—follow carefully the instructions on page 3 of your present directory.
3. Retain your present directory for listings other than Winona and Stoney Creek.

While our new central office is fully equipped to enable us to maintain a high standard of service, your co-operation is requested in limiting the number and length of calls for the first few days following the conversion.

EVERY DAY WOOLENS

By ALICE ALDEN

IT'S WOOL, wonderful, warm wool that wins by a walk-out for walk-out frocks, for smart day-time dresses and for beautiful after-five specials. For a dress calculated to take you through a busy day and to take you from fall into winter in smart, graceful fashion, we cite this David Westheim dress. It comes in light colors from off-white such as cloud white to beautiful blues, mauves and grays, to name but a few shades. Despite its sensible price, it is of butter-soft wool and is very well detailed. The simple bodice has a nice collar and a deeply V'd neckline that also buttons high. The folds start off with stitching below the skirt which fall into graceful lines.

Strictly Canadian by Claire Wallace

Jewellery is our subject, and one that is close to the heart of every woman. We all long for precious jewels but if it is impossible to own them, we can, these days, console ourselves with very attractive costume jewellery. Whether jewellery is in the million dollar class or the 10-cent store variety, there are rules governing the wearing of it. Fashions change but good taste doesn't; and a way of dressing in good taste is not to wear too much jewellery, or that which is too flashy.

Let's start with earrings and work our way down to the ankle bracelet.

Earrings may be worn any time but, of course, you wouldn't wear them when doing housework, or even wear dangling ones in the morning. With tailored clothes

earrings should be in keeping, simple in style. Never wear earrings while on the beach or participating in any active sport such as swimming, golfing or tennis.

Necklace: The plain gold or silver necklace, which is so fashionable now, may adorn your sweater dress morning, afternoon and evening, but not for formal wear and not for sports. A string of pearls is the most versatile necklace. It may be worn any time of the day and is the only item of jewellery which may be correctly worn with sweater and skirt when playing golf. It is an ideal adornment for evening clothes. The fondness of the Royal Family for pearls is interesting. With a treasure chest of jewels from which to choose, they wear pearls most often. Those which King George gave to his daughter, Princess Elizabeth, for her marriage, I saw displayed in St. James' Palace among her wedding gifts, and again when she wore them at her wedding in Westminster Abbey. They are two strands, each pearl as big as a marble. An epic work of the oyster! Nowadays, you can wear several strands of pearls at one time, plain or intertwined, and they are not considered too dressy even for ordinary wear.

From the sparkle and ornate for evening, and do not wear too much sparkle or ornament at any time.

Bracelets: Not worn in the morning, to work or shop or to meetings, but are suitable for afternoon or evening wear. Jangling bracelets should be worn with caution, never to the office and never to a bridge party where they prove distracting to others. Bracelets are not worn on both arms at once.

Rings: Rings on your fingers, if they are "the real McCoy," may be worn any time, at breakfast, luncheon, dinner and for evening wear. They are not worn to the beach or when taking part in active sports. If rings are synthetic, they cannot be worn so freely. Rings may be worn on both hands at once. More than one ring may be worn on one finger but avoid fastness or too much ostentation show. When in doubt, leave off one. As a wise woman I know once said, she always looks at herself in the mirror before going out, and then takes off one piece of jewellery.

The ankle bracelet: The well-dressed person doesn't wear one.

Readers are invited to write Claire Wallace about their etiquette problems. Address Claire Wallace, care The Grimsby Independent, Grimsby, Ontario, Canada. Replies will appear in this column.

ATOMIC ENERGY

The United States not only had the world's first atomic energy pile or plant, in Chicago in 1942, but it now has 10 of the 14 piles now known to be in operation or under construction. Of the other four, England has two, Canada one, and France one.

LETTER FROM AN
UNKNOWN WOMANJohn Fontaine Louis Jourdan
SO THIS IS NEW YORK
Henry Morgan Virginia Gray
SHORT SUBJECTSCONTINUATIONS
From Page OneROMAINE ROSS
throughout this great County. Romaine Ross is undoubtedly one of the most brilliant young men ever to enter his name as a standard bearer for the party which he has supported for over twenty years.

His long association with the Conservative party has seen him campaign throughout the Province of Ontario in many election battles. Giving unswervingly of his time, his vast knowledge of political matters has on numerous occasions been of great assistance to other candidates seeking office.

Here in Lincoln Mr. Ross has through the years made the acquaintance of many hundreds of people who, knowing him, respect his sound advice, and his genuine friendliness. Both through his chosen vocation, and through his efforts in many lines of public service, Romaine Ross has in Lincoln, many people who will welcome the chance to support him as he seeks nomination.

Here in Grimsby, many older residents will first recall Romaine Ross as a member of the 1924-25 Junior Peach Kings. Playing along with such fellows as Bo Farrell and Marvin Wentworth, Romaine Ross was a forward on that Peach King team. But going back even further, Romaine Ross was born in Wellandport, and attended Smithville and Beamsville High Schools. After graduating, he entered Osgoode Hall from which he graduated in 1931. Opening a law office in St. Catharines in November of the same year, he also opened a branch in Beamsville. This office he visited regularly several times a week, and established many friends in that area. Not content with his Osgoode degree, Romaine Ross continued his studies, taking extramural work at the University of Toronto, graduating with an LL.B. degree in 1936. Then followed an even more concentrated study of Constitutional, International and Municipal law. To-day he is one of the few men in Canada holding the degree of Master of Law, the highest legal degree granted in the Dominion.

In this connection, and with the knowledge gained through his many years studying, Romaine Ross gave his first thoughts toward preparing a book, which just recently has gone in the hands of the publishers. Entitled "Local Government in Ontario," the edition is scheduled for release late this fall or early in 1950. Dealing with historical development of municipal government in Ontario, the Ross-edited publication pertains largely to the structure and function of government in this Province.

Romaine Ross has given many thousands of hours of time in the interest of those about him. President of the St. Catharines and Lincoln County Children's Aid, he is an apt candidate for the Presidency of the Ontario Association Children's Aid in the near future. He was an officer of the St. Catharines Junior Chamber of Commerce when it was founded, and was instrumental in promoting the campaign to erect the fine Garden City Arena which exists there to-day.

He organized and became the first president of the League of Nations Society in St. Catharines, and is a past president and member of the Y's Men's Club of St. Catharines.

Other organizations have benefited by his experience and business relations, one of these is the St. Catharines Red Cross Society, of which Mr. Ross is a past secretary. He is also chairman of the Legislation Committee of Ontario, and an honorary member of the Port Dalhousie Branch of the Canadian Legion.

In 1946 Romaine Ross entered municipal politics, being elected to the Council of the then Village of Port Dalhousie. Re-elected the following year, he stood for Reeve the third year which office he received by acclamation. He headed the polls by a vast majority and arranged for the Village of Port Dalhousie to become a town, and Romaine Ross became its first Mayor.

A former member of the Lincoln County Council, he also has been associated with St. Catharines-Lincoln Health Unit, a member and former director of the Port Dalhousie Yacht Club, a member and former director of the St. Catharines and Lincoln County Game and Fish Protective Association, and an honorary member of the St. Catharines Revolver Club.

He was instrumental in the organization and subsequent chartering of the Port Dalhousie Lions Club. He is a member of the Community Hospital Council which meets with the Board of Governors of the St. Catharines General Hospital, and he was a member of the Consultative Committee of the County Council, which meetings were organized at the East Lincoln High School Area, composed of Merriton, Thorold, Port Dalhousie, Grantham and part of Thorold Township.

NEW DENTAL SERVICE
Funds.

Fluorine, hailed as being a decay preventative, will be administered under the new service. It is believed, and with a thorough check being made of every school pupil in the county at regular periods, the new service will do much to lessen tooth troubles in early stages. The work of the new preventive service will be similar to that being carried out under Dr. Lee Honey, in Welland County, who is at present working with the Red Cross Society.

Preliminary preparations for the new service are expected to commence around July 1, with visits to schools scheduled to start in September, when the holidays are over.

Dr. Curvey said that the new service will extend in dental inspection services to all parts of the county, where formerly they were only carried out in St. Catharines and paid for by the City of St. Catharines. The new service is held as a progressive step in the St. Catharines-Lincoln Health Unit.

TELEPHONE DIRECTORY
calls passing between Grimsby and Winona, the supplement is also mailed to Grimsby subscribers, although it contains no Grimsby listing. It is printed on colored paper, and has a gummed edge so that subscribers can glue it into the current Hamilton directory.

Mr. Stewart warns subscribers that the supplement does not come into effect until Sunday morning (May 10th), at which time Stoney Creek telephone users will be able to use their dial instruments.

"BLUE BOOK"

OF FAMOUS
TRAINS...Serving all ten provinces
of Canada

Across Canada, travellers are speeding to their destination on trains of the Canadian National, enjoying delicious dining car meals, comfortable sleeping accommodations, rooms and berths, and every travel comfort.

Famous trains such as The Continental Limited and The Ocean Limited, enable you to cross Canada from the Pacific to the Atlantic. The International Limited, The Inter-City Limited, The Washingtonian are typifying Canadian National's importance as an International carrier between Canada and the United States.

These and other great trains, together with dependable "locals", cover more than two million miles each month and make up the Railway "Blue Book" — the Canadian National Time Table. Only Canadian National serves all ten Canadian provinces, and the "Blue Book" is your guide to everywhere in Canada or across the border, be your journey for a day, overnight or longer.

You enjoy courtesy and
service... you travel in comfort
... you arrive refreshed
and relaxed where you go

GRIMSBY GIRL IS HIGHLY HONORED BY CLASMATES

Miss Jean Jarvis has been chosen by her fellow students at Alma College, St. Thomas, to be Queen of May, at the annual May Day festivities at the College on May 21st, when she will be crowned. Jean is a daughter of Mr. and Mrs. T. D. Jarvis and a sister of Herbie Jarvis.

BAPTIST CHURCH

An unusually large and representative gathering of the congregation of the Baptist Church attended the Mother's Day Service in the Baptist Church last Sunday morning.

A very fine assortment of potted plants, spring flowers and blossoms sent in appreciation of the mothers of the congregation and tastefully arranged by a skilled committee on decoration into a beautiful and fragrant assembly whose fragrance filled the entire auditorium. A large choir of the mothers of the congregation led the congregational singing and rendered as a chorus the beautiful hymn "Near to the Heart of God", and Mrs. Arthur Vickery, guest soloist, deeply effected the entire congregation by her sympathetic rendering of the hymn "The Stranger of Galilee" as a solo.

The guest speaker Mrs. Marion Bates, Dean of Women of McMaster University, gave an interesting and challenging message to mothers having her words on the latter part of the thirty-first chapter of the book of Proverbs.

TRINITY COUPLES' CLUB

'Miss Hunt, the guest speaker of Trinity Service Group of the W.A. put on a Lux pageant of Fashion on Tuesday afternoon in the Baptist Church. The mannequins were fourteen freshman dolls, about one and one-half feet high, dressed in costumes complete with under-wear and hats depicting the styles starting at 1930 right down to the present, 1949. Miss Hunt has a very keen sense of humor and spoke concisely telling the members how war changed fashions etc. Everyone thoroughly enjoyed her talk.

Mrs. Norman Bowers reported the official Board Meeting and a report of the Bala Hall was given by Mrs. Vickery Cation.

A group of people from Carlton St. Baptist Church in Toronto, are touring the Niagara Peninsula this coming Saturday and the Service Group are entering to them.

Future activities for the month of May consist of a Garage Sale to be held on May 2nd, and a Spring Tea at Mrs. J. H. MacMillan's on May 27th.

The Dedication service for the Memorial Window will be held at Trinity Church on Sunday, May 22. and Mrs. Vickery Cation, who sponsored the idea, will unveil the Window.

Rev. A. L. Griffith suggested that the Club might send a local girl to the Ryerson church camp as a scholarship. The speaker for next month will be the Rev. Marion Collins of Hamilton, and the girls are urged to turn out to hear her address.

Hostesses for the afternoon were Mrs. Russell Terry, Mrs. Mel Johnson, Mrs. J. K. Harrison and Mrs. Keith Zimmerman.

IN MEMORIAM

GARR—In loving memory of our Mother, Mary Garr, who passed away May 12th, 1944. Deep in our hearts lies a picture of a loved one laid to rest. In memory's frame we shall keep it.

Because she was one of the best. Always remembered by The Family.

BIRTHS

ROUSE — At Vineland Nursing Home, Saturday, May 7th. To Mr. and Mrs. Norval Rouse, a son, Gary, a brother for Jean.

NEW PREMIER'S WIFE
IS SMALL TOWN GIRL

Mrs. Leslie Frost, a trim, grey-haired "small town girl," was untroubled last Wednesday when she found herself the wife of Ontario's next premier.

In a grey suit and navy hat, she smiled for photographers, banded out rooms from her bungalow to friends and described the whole day as "exciting but bushing."

Gertrude Jane Frost was one of the first to congratulate her husband when he was elected to head the provincial government at the Progressive Conservative convention.

"Les really does deserve it," she told reporters later. "I have to listen to all the awful things people say about my husband, but I think he's wonderful."

Born and raised in Lindsay, Mrs. Frost is the daughter of the late John Carter, former Progressive Conservative member of the legislature for Victoria—the same seat her husband now holds.

She says she married a "struggling young lawyer" 23 years ago after working two years in her father's lumber yard office, and has lived a quiet, interesting life as a "small town girl."

"I've no children, cats, dogs or canaries, but I think the thing I'm most proud of is that every child in Lindsay knows me and calls me 'Aunt Dot,'" she said.

VINEMOUNT NEWS

The May meeting of the Ladies Aid was held at the home of Mrs. J. H. Dick, Livingston Ave., on Thursday afternoon. Mrs. L. Larson, the president, was in the chair. Mrs. James Wray had charge of the devotional period.

The next meeting will be the last one of the season and a birthday party is being planned. It is hoped to have a strawberry social later on.

At the close of the meeting lunch was enjoyed by the members.

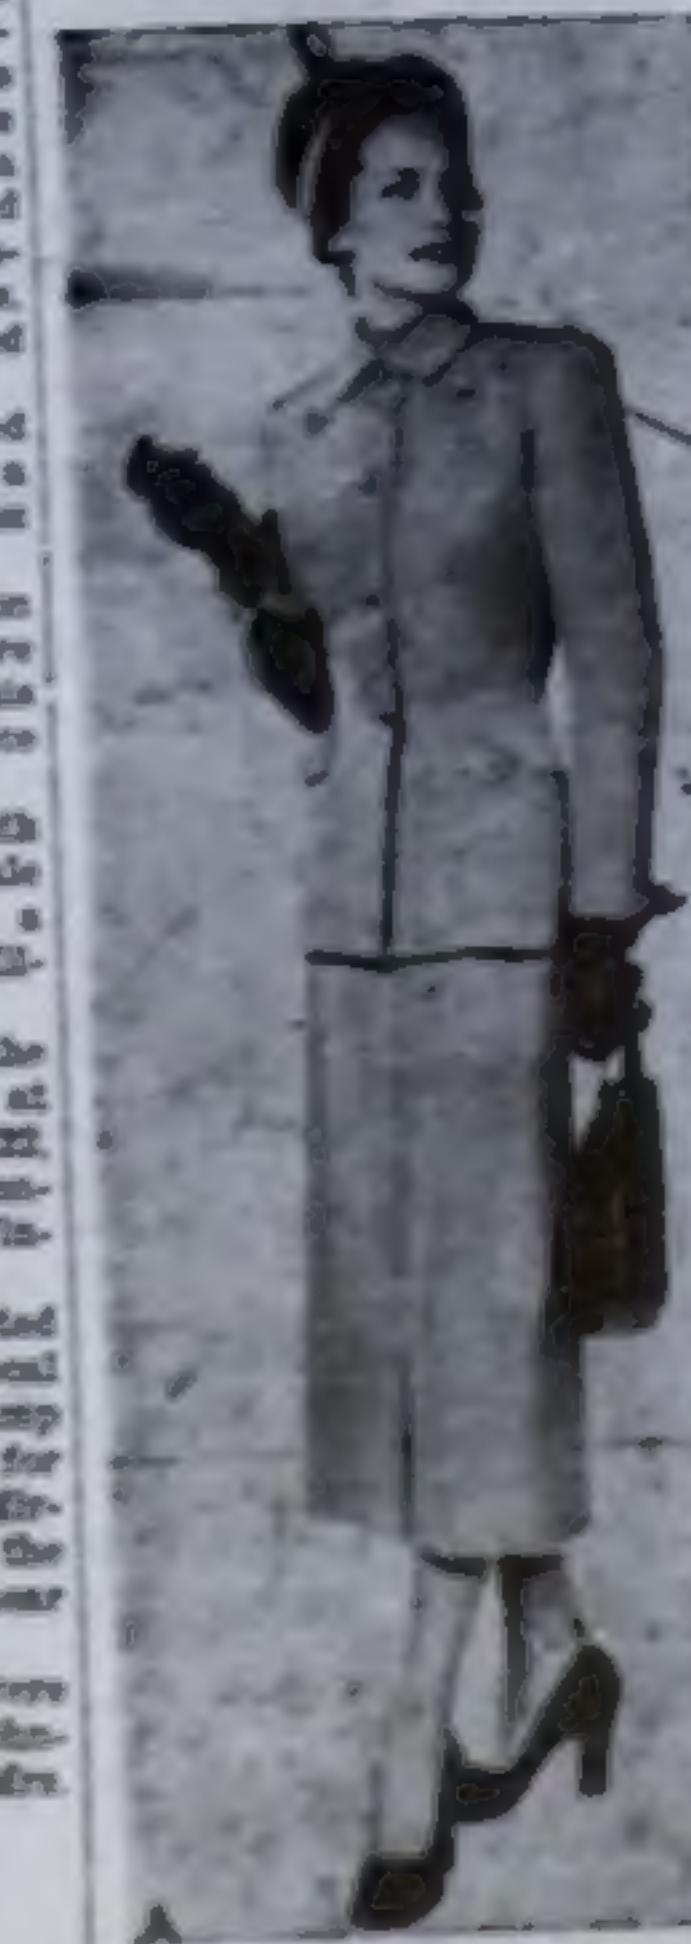

COMING EVENTS

THE WOMEN'S ASSOCIATION of Trinity United Church are holding a Tea and Sale of Baking at the home of Miss Margaret Allan on Friday, June 16th.

The regular monthly meeting of the Mother's Club will be held at the home of Mrs. A. Henley, 185 Main West, on Wed., May 18th, at 2:30 p.m. All mothers welcome.

A Bridge and Euchre party will be held at the Grimsby Park School on Friday, May 13, 1949, at 6:00 p.m., sponsored by the Parents' and Teachers' Association. Admission 50c. Proceeds for the Annual Sports Day.

WELL CUT COSTUME

service and the business assisted by Dennis Watt, Bette Thomas and Stella Krick. The meeting was divided into small groups for the study of the following countries: China, Africa and Canada. Refreshments were served by Mrs. Lester, Stella and Ruby.

which Mrs. Leslie Thomas, assisted by her daughters Bette and Margaret, served refreshments.

39th ANNIVERSARY

Mr. and Mrs. Charles Clatman celebrated their thirty-ninth wedding anniversary on Sunday, May 8th.

Their four daughters, Mrs. George Frost and Mrs. Jack Philbrick of Vineland, and Mrs. Jim Falconer of Philbrick and Mrs. Jim Falconer, town, surprised them with a supper and gift of a table lamp.

Romance Of A River

Two weeks ago, the Hydro-Electric Power Commission of Ontario, sent one of their young representatives to Grimsby, in the person of Ron Cooksey. Armed with informative movie reels of the development of hydro power, Ron Cooksey ran these reels off at G.H.E. Davey Thompson, manager of the local Hydro office, was vitally interested in the affair, and offered a five dollar prize to the student submitting the best essay on what they had seen and heard.

The following article is a remarkable piece of work, written by fourteen year old Jean Kryszewski, of 37 Patton St., Grimsby. A student of 10B, Jean's essay was adjudicated as the best submitted and so wins Mr. Thompson's generous offer.

Titled "The Romance of a River" the essay appears exact in every word as penned by Jean.

The great north is huge and wild. It is where the first scattered tribes of the Red Men were to be found. Then came the trappers with dog sleds hunting for pelts. Later prospectors came with courage and high hopes looking for gold and silver which was said to be found in the north. Next came the lumbermen who cut down trees and sent them south to civilization. Finally the railway pushed into the north with determination through dense scrub and rocks. Each one as he came helped open up the north, but even though they all had courage and determination there is one thing which then, as today, helped immensely, and that is the rivers.

L.O.L. 2732

The regular monthly meeting of L.O.L. No. 2732, will meet on Wednesday next, May 16th, at 8 o'clock, in the Masonic Hall, Grimsby. A good attendance of the members is requested.

WINONA MEN'S CLUB

The Third Annual Ladies' Night of the Winona Men's Club was held on Wednesday, May 6th, at the Winona Legion Hall.

The president, Douglas Watson, presided over this meeting.

The dinner was served by members of the club and the waiters were members of the Winona Jurnelle Hockey team.

The Rev. A. H. Morrow said grace. During the dinner Clarence Piper entertained with his accordion, and community singing was led by Morton Found and Don McCollum, with Mrs. William McKinley at the piano.

Howard Boyce collected contributions from members for infringement of rules. Douglas Watson introduced the ladies and the officers and directors.

Lorne Bradley as treasurer explained how money was raised, how it was dispersed and accounted for.

Roy W. Parkes as secretary explained the duties of this boy's.

Howard Cocks for the Boys' and Girls' Welfare Committee gave a resume of the past activities and future projects, emphasizing the Hobby Fair to be held on June 4th and the presentation of the Memorial Shield and prize to be given to the student in Grade VIII at the Winona school who is chosen by teachers and students as being most efficient in this year's class.

Howard Boyce for the Membership Committee explained how they went after new members and saw that they came to the meetings.

Dick Currie for the Civic Improvement Committee stated what had been accomplished for the community and the recommendations for future projects.

Albert Papazian for the program and finance, told of the working of this committee.

Tom Collin, chairman of the Athletic Committee told of the success of the Winona Hockey Team, and the prospects of the baseball team.

Let us take the Oಗok River, which supplies power for Ontario, and follow it as it whirls waters relentlessly southward through towering rocks and crags. It is smooth in places and rough in other places depending on the surrounding land. As it rushes southward, it passes through Lake Nipigon, the Virgin Falls, down to Cameron Falls where hydro is produced by means of canals and a power house. Electricity is made here under as ideal conditions as possible. From here, it is sent across country in high voltages to various cities where, at the distribution centres, the number of voltages are decreased and then sent to your home over the special lines where you can, at the flip of a switch, get as much electricity as you need.

Most people take electricity for granted and do not stop to realize what a large part it plays in our everyday lives in peace as war. It helps in factories, on the farm, in the home, in schools, and in a hundred and one other things.

As once Laura Secord brought a secret along with victory and freedom to our arms, even in the present day, the power plants are fountains of freedom working for peace for to-morrow.

Yes, indeed, no one can deny that electricity plays an important part in the new and romantic chapter to a greater Ontario and her citizens as they march to the widening horizon of to-morrow.

A STRANGE BELIEF

Some primitive people still believe that a man who has died in his sleep has been killed in a fight with an enemy he has met in a dream.

GOINGS — COMINGS — DOINGS

AT
Grimsby Beach

MISS MAY CRITTENDEN,
Resident Staff Correspondent.
Telephone Your News Items To Her.

Mrs. L. Teggart left Tuesday for Deep River, Ont., for the summer.

Mr. and Mrs. A. Tissen, Toronto, are spending two weeks at their cottage.

Mrs. J. McClelland arrived on Saturday from Olean, N.Y., where she spent the winter.

Mr. and Mrs. H. M. Wilkinson of Toronto, have purchased a house from Mr. Rosebrugh.

Mr. and Mrs. M. S. Benson of Toronto, have arrived at their cottage to spend the summer.

Visitors at the home of Mr. and Mrs. Walter Schott during the weekend were Miss Dorothy Beatrice, Mrs. E. P. Beattie, Mr. Ronald White, Toronto, Mr. and Mrs. E. Schott and friends from Kitchener, Miss Helen Wood, Jerseyville, Mr. and Mrs. George Chase of Hamilton.

of Colgate-Rochester Divinity College where she and Rev. Griffith went last month for lectures. One could almost see the chapel as Mrs. Griffith described the hand carved communion table, the service and choir, also the beautiful stained glass windows of people in modern dress. We also were told of the welcome the Canadian ministers and their wives received from the delegates who gathered from all parts of the world for these lectures.

Afternoon tea was served by the April committee.

**CONTINUATIONS**

From Page One

LIEUT-GOVERNOR WILL
The opening of the Hall will take place at 4:30, immediately following the unveiling of the Saltfield War Memorial, which is now being added to, with the names of those men who fell in World War II being inscribed thereon. The unveiling ceremony is scheduled for 2:30 of the same day as the opening of the Legion Hall.

Visiting dignitaries will include Legion officials from Provincial and District Commands, as well as government officials.

Following the opening of the Hall, the ladies of the Legion will serve tea at the reception. More details on the event will follow in succeeding issues of The Independent.

JAYCEES COMPLETE
light and add a bit of humour to the event.

The invitation is out to anyone wishing to take part in the Motorcade, and those who are planning on taking part would do well to do much of their own decorating before coming down to Livingston Avenue from which the Motorcade will move off at 1:30.

President of the Jaycees, Jim O'Brien, reported that the Cancer campaign had been completed, and that the sum of four hundred and ten dollars had been forwarded to headquarters in St. Catharines.

Several local members attended the Jaycees convention at the General Brock Hotel over the past weekend, at which Phil Farmer of St. Catharines, was successful in his campaign to become President of Region 5.

HOSPITAL IS CLOSED
shopping and sewing to recreate in these articles, along with the new, the same happy informal atmosphere everyone enjoyed in the original hospital.

A landscaping project in the hands of a group of volunteer workers will take shape within the next few weeks to transform the grounds surrounding the new hospital. Yet even here you will find a token to stir the memory of the hospital on the hill. Arrangements are being made to restore the old light standard to its previous function as a beacon in the night to light the way for the sick who need the care of this hospital.

These are the days when the material evidence of the memories of many of us is being reassembled and reorganized to restore to our people a vital service, and in so doing, recreates what will be truly West Lincoln Memorial Hospital.

BLOSSOM MOTORCADE
streamers and blossoms (if any are left) and the Jaycees will also be supplying stickers designating the Motorcade as being instigated by the Grimsby Junior Chamber of Commerce.

Convertible cars will lead the procession in which the Blossom Queen and all the Grimsby girls who took part in the contest will be riding with certain young Grimsby gentlemen attired in morning dress.

The Black Hawk Motorcycle Club of Hamilton are also scheduled to help escort the Motorcade on its trip through the Peninsula. The more cars that turn up the better, is the attitude of the Jaycees, who are hoping for at least two hundred cars.

The Motorcade will drive back to the Village Inn from the Falls, and the Queen and her court will be escorted to dinner in the Oak Room.

All in all it should be a terrific afternoon, and a great piece of publicity for Grimsby, so if you have nothing to do—come on and join the parade...

MORE NEW TEACHERS
bers of council and representatives of school boards.

The resignation of Miss M. Pugnet of the High School staff was accepted with regret.

Mrs. Lessore Wilson, of Grimsby, was appointed on the Public School staff, to commence in September, and Howard Vaughan to the High School.

A motion was passed increasing the membership of the management committee from three to five, the new members being William Hewson and Robert Johnson.

The board accepted with thanks the set of footlights offered to the board by the Lions Club.

It was moved that the board grant to the use of the gymnasium to the Junior Optimist Club each Wednesday evening that it is not being used for school purposes or has not been previously engaged till the end of June, with the provision that suitable supervision be provided.

It was decided that fees for rental of the High School hall may be paid to either the secretary or the principal only, including janitor's fees, and the secretary will report all monies received to the board.

The annual cadet inspection and open house will be held May 20. Upper school qualifying examinations will commence May 21.

Vitalube MOTOR OIL

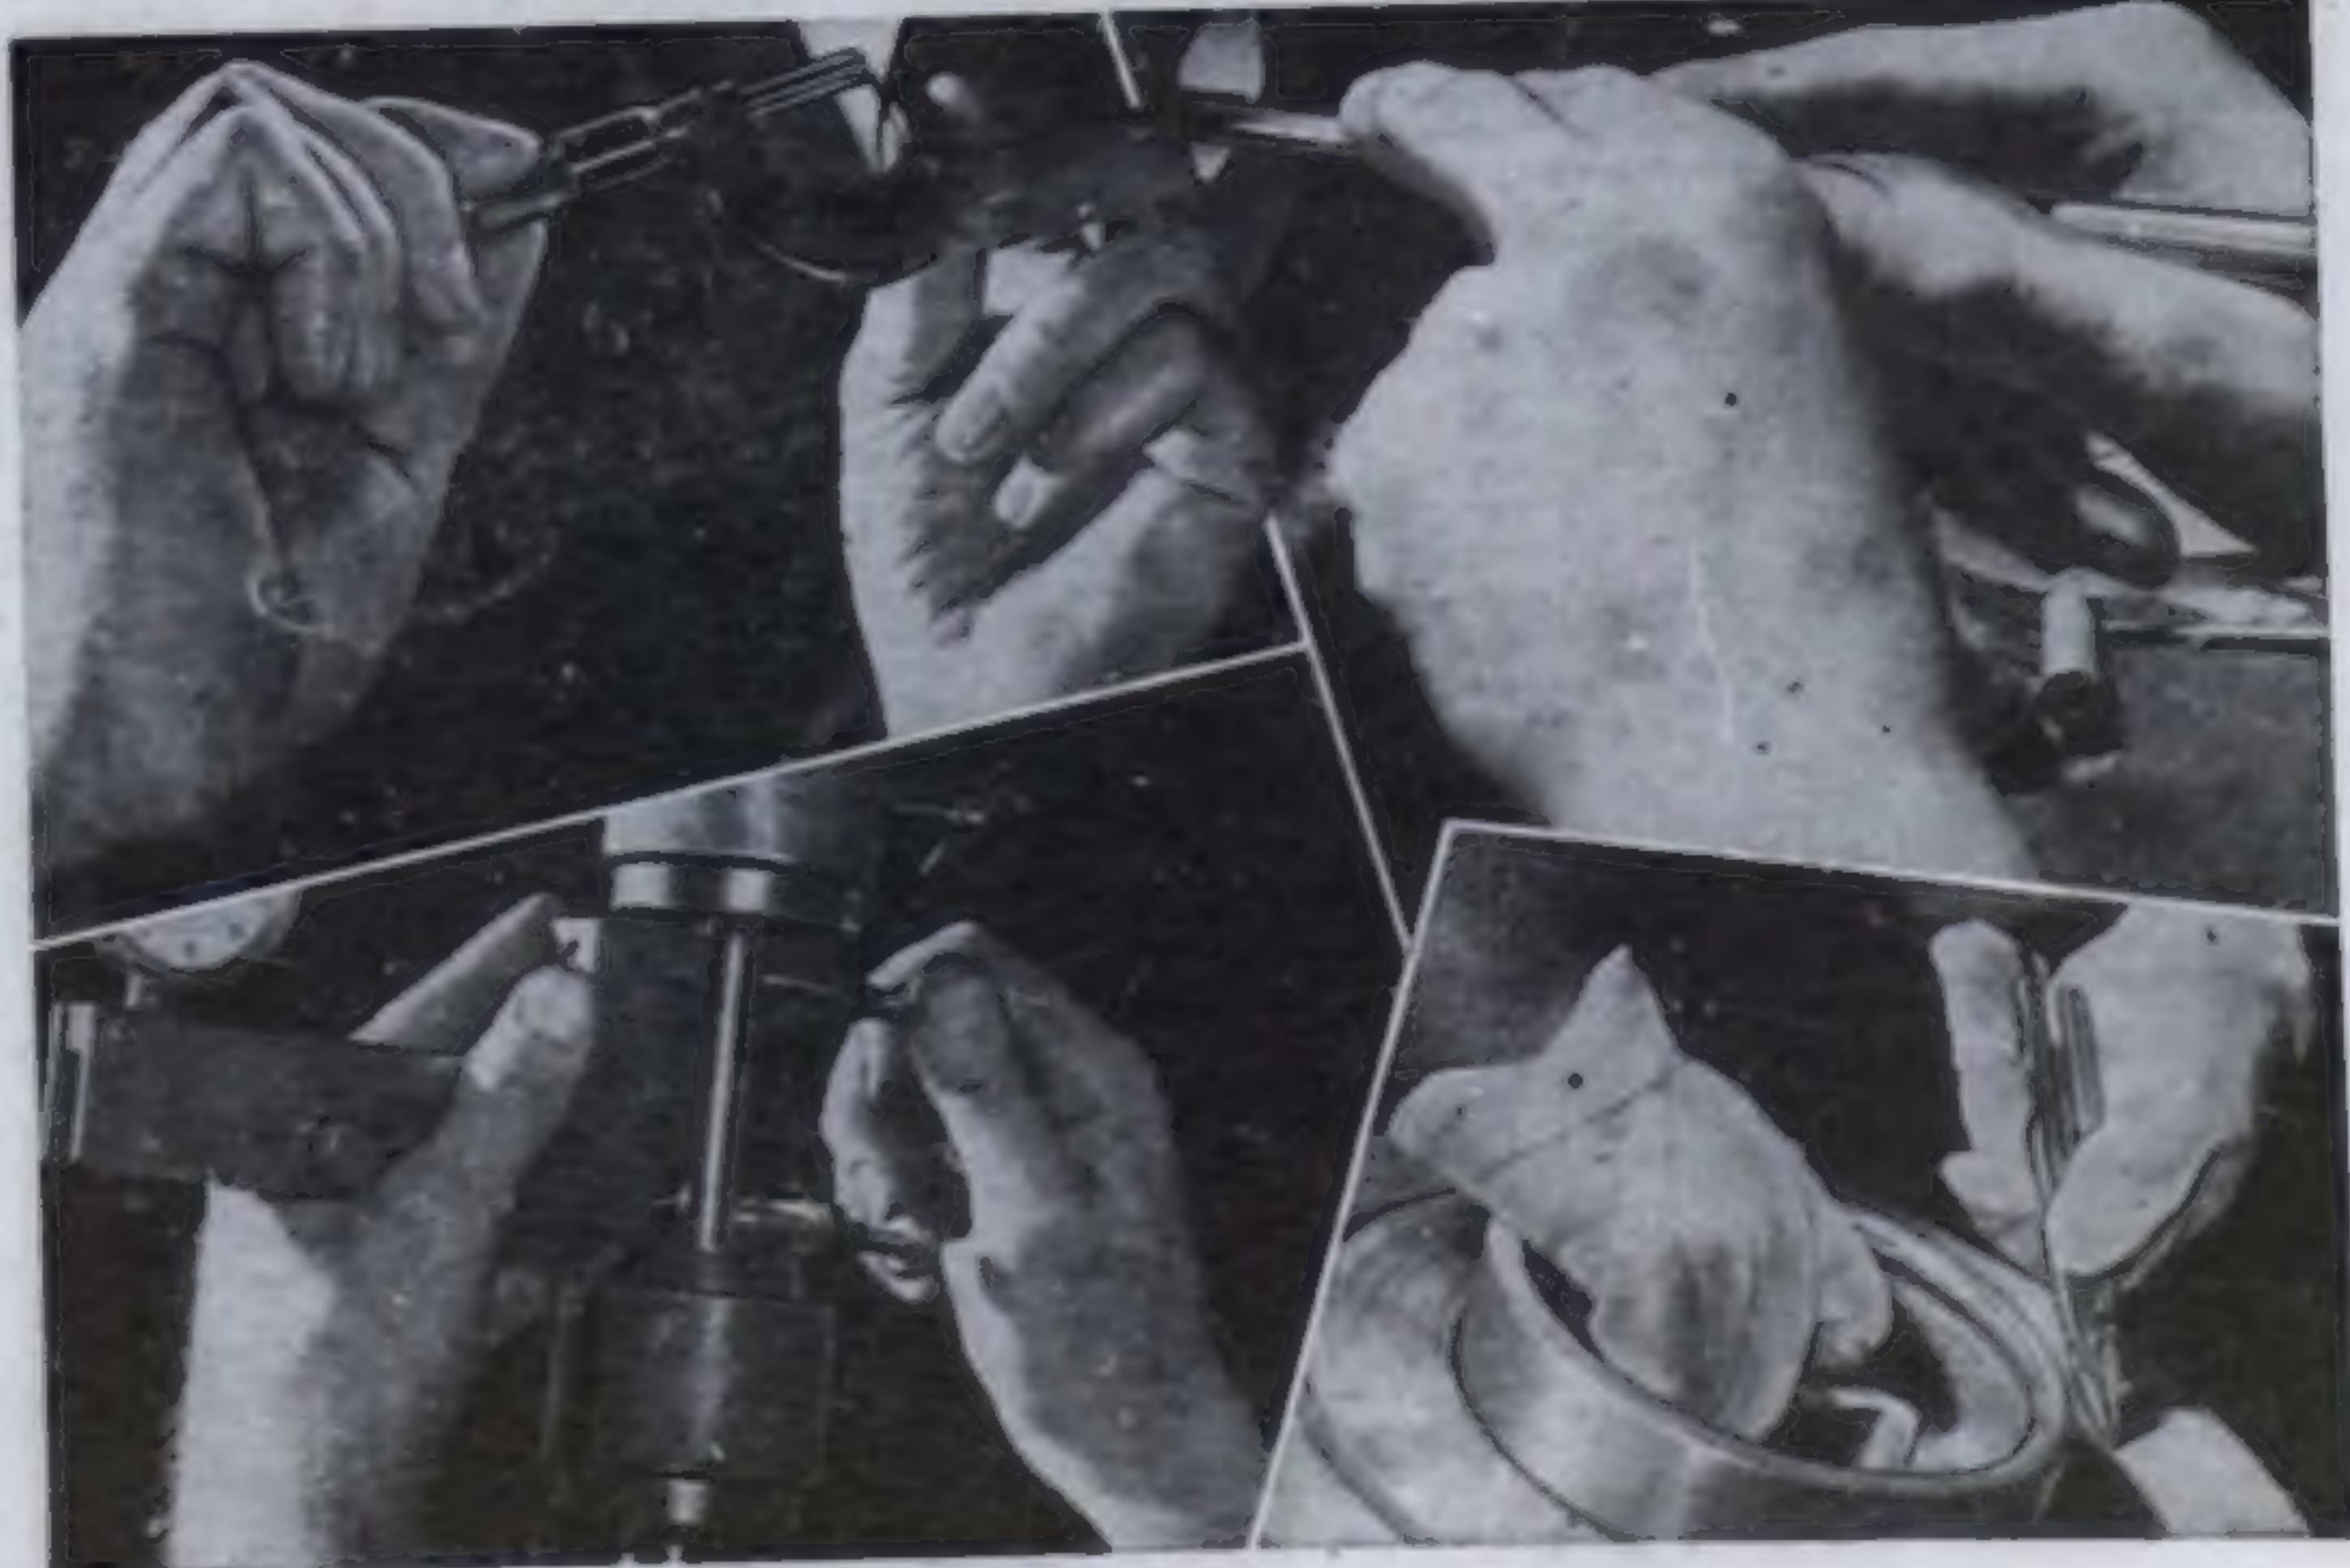

Highest quality — highest octane rating . . . no finer gasoline made. Gives you new breathing gateway . . . new speedy pickup . . . new power on hills . . . velvet smoothness on the open road.

Lower-priced but high performance . . . for motors not requiring a high-octane fuel. Noted for its long-mileage economy, care-free performance and smooth power.

Give your motor **POSITIVE PROTECTION**. Vitalube is more than an oil; it's insurance against sludging and engine varnish. Like other Reliance products, it's backed by 30 years' experience.

STOP at the STATIONS with the RED BAND — OVER 600 IN ONTARIO

YOU CAN RELY ON RELIANCE

HANDS IN TRAINING...FOR ONTARIO**Learning to Work With Copper and Brass**

IN Ontario the wheels of industry turn for the benefit of every single one of us. Our lathes, dynamos, drill presses, farm combines, tractors, business machines, etc. are producing goods and services which earn dollars. These dollars provide food, clothing, medical care and other necessities which contribute to our security and high standard of living. Every single one of us, therefore, has a very personal interest in the flow of a steady supply of trained workers to industrial plants. These workers will operate machines which are important to our way of life.

We should appreciate, then, the co-operative efforts of government, industry and labour in the field of employee training. In schools and in factories our workers, young and old, are given the opportunity to develop new and specific skills in every field of business and industrial activity. For instance, every effort on the part of workers to become proficient in the art of shaping and moulding copper and brass, will mean greater industrial progress—will help to make Ontario a finer place in which to live and work.

THE BREWING INDUSTRY (ONTARIO)**Our Way of Life Rewards Trained Hands**

Ontario workers know they can earn more, have executive responsibility and enjoy a higher standard of living in direct ratio to the skills they acquire and the way they make use of them. That's always true in a free economy—that's why our competitive system will continue to make Canada great and a great place in which to live.

LOCKWOOD MOTORS — STONEY CREEK

SPORTOLOGY

(By Bones Livingston, Sportologist)

AU REVOIR, NOT GOOD-BYE—All good things come to an end, unfortunately not because the person concerned wishes them to come but because of circumstances beyond his control. In most cases it is an unfortunate circumstance for both the person concerned and the public at large but those things cannot be helped, they are guided by the Great Sportsman High Above and what He says goes.

Two or three times in the past few years OLD POP McVICAR, in the heat of battle, has announced his retirement from Canada's Great National Game, in which he in the past quarter century has had a great part in building up. But when the cold winds blew and GEORGE MARR had ice on the Arena, he always came back to the wars.

He came back. Sure he came back. And he suffered plenty in coming back. But like the PEACH KING that he was, and is, he took it on the chin and carried on.

Three weeks ago The Independent told you that OLD POP McVICAR would not be back again as an active coach. He verified that statement last Thursday at the PEACH KING'S CLUB BANQUET in The Village Inn. He told the club executive and the players that he would not again be an active coach but would help gather players for the 1949-50 team and act in a consultative capacity with whatever coach the executive decided upon.

No matter who the next coach is, and no matter who the players are, the consultative advice that comes from OLD POP will be worth every grain of gold that comes out of the Hollinger mine.

It is tough for an old fire horse to stop running around that pasture field when he hears the fire gong, but it "Must be done." OLD POP, like many an other man, myself included, go to the last ditch before quitting. Then it is too late to continue participation in active sports and other activities. You then just become an armchair critic or a consultative engineer. Thank Heaven POP is going to be in that consultative position.

JOHN RITCHIE McVICAR owes the Town of Grimsby and the Great Grimsby Fruit Belt NOTHING. In fact this district owes him plenty. The Split Lath came to Grimsby in March of 1923 and since that date he has been nothing but a credit to the whole Fruit Belt. He was an outstanding player on the Famous Old PEACH KING'S. He was an outstanding player on both minor and major championship professional teams including the Montreal Maroons. At no time did he ever forget the fact that he had been a PEACH KING.

He showed his good sense the day he married Dorothy Norton. He lived in a 2x4 but he eventually built a fine home and raised two lovely daughters. He is now a grandfather and I can positively attest that he is a perfect baby sitter.

After the finish of the war and NIAGARA PACKERS opened the Arena the OLD BOY went into action. The winter of 1946-47 he won the Intermediate "B" championship against the good Markham team. The winter of 1947-48 he won three championships and never left his own group. He won the Intermediate "B"; the Intermediate "A" and the Senior "B" all with the same team. That is a record unequalled in O.H.A. hockey. But once the O.H.A. moguls started to boot him around he showed them what he could do. Sarnia took his B.A.M. team to the cleaners. This past season he carried his beloved KING'S through as grueling a season as any team ever went through the Big Six Senior "B" group to a championship. The toughest, hardest group in the O.H.A. and then with a dog tired team with no rest were taken out of the semi-finals by that fresh-young Peterboro team. I want somebody to show me a coach with a better record than this and when they do I'll buy them a case of Black Horse.

Au Revoir from the active ice lanes, POP. From now on, after a quarter of a century of battling looks like you and I will have to do our stuff from the arm chair, but believe me, as long as that old nut of yours is working, there will be a PEACH KING gladiator team on that ice battling no matter who the coach is.

THE FICKLE PUBLIC—There is something more than the deportment of baseball players, managers and coaches involved in that Durocher case at New York; it is a matter of public behaviour. The public, or at least an element of the public, can be wrong, as in a mob as in a great crowd, there is a cowardly element. When the charge of assault was first heard against Durocher, there was a great public outcry to send him to Siberia for all time. As soon as the facts became known, volatile public opinion changed overnight in favor of this notorious character of diamond lore. It speaks well for the American public that this is so. It would be the same in Canada. Mob psychology can be a very dangerous thing, as many men at the end of a rope have appreciated in the very same States of the Union. Safety lies in full publicity and judicial hearing.

Dave Boone, in The New York Sun, draws a good moral in the case, when he states:

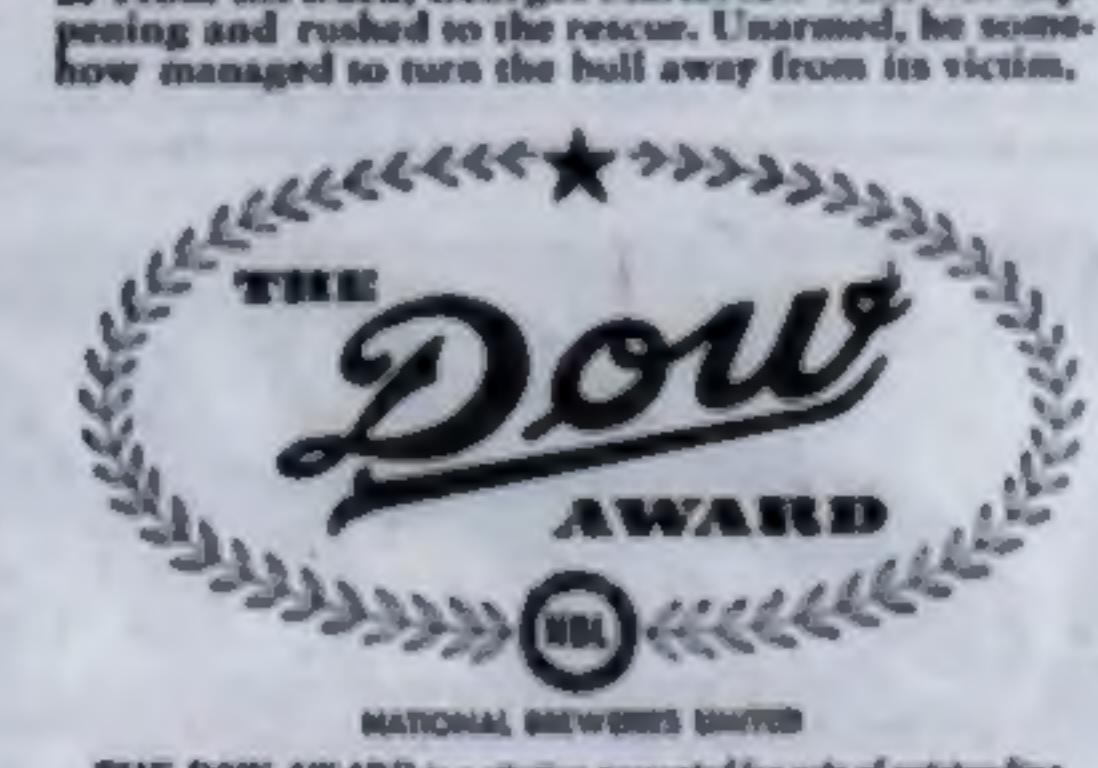

The place for that Durocher case is before the United Nations. The whole point is whether a baseball man who has taken abuse all afternoon is an aggressor state. I hold no brief for Leo, but it seems to me that if an abusive fan falls down within 300 yards of him he is certain to be changed with breach of the peace, assault, mayhem, sabotage, arson and violation of The Hague agreement. A dozen Communist leaders accused by Uncle Sam of plotting to overthrow the United States government are in their fourth month of extreme consideration and tolerance from a court which it abuses daily. A baseball manager accused of possibly losing his head after a hectic ordeal gets suspended without a hearing and inside of twelve hours is threatened with being deprived of his living for the rest of his life. And we wonder why some folks are puzzled by the American way! Regardless of what happens to Durocher, the playing field is no place for the fans any more than the grand stands are the place for ball teams. And there must be some point in the abuse at which a heckler can be wrong.

All's well that ends well. High Commissioner Chandler has exonerated Durocher, reproved the owners for failure to properly police their property, and he has also given carte blanche to the owners to have police remove objectionable characters who, buried in the crowd, hurl their vile epithets and abuse at players on the field, and umpires too. It is a wonder that this reform had not been instituted long ago. Even so, baseball will still be distinguishable from cricket.

This is Olympia and his trainer Ivan Park. This equine was the hot favorite to win the 75th running of the Kentucky Derby and more than one local two buck punter took it on the chin when he ran in the truck and a 16 to one shot, Ponder, coppered the roses and the pot of gold of \$100,000.

UNARMED MAN SAVES FARMER ATTACKED BY ENRAGED BULL

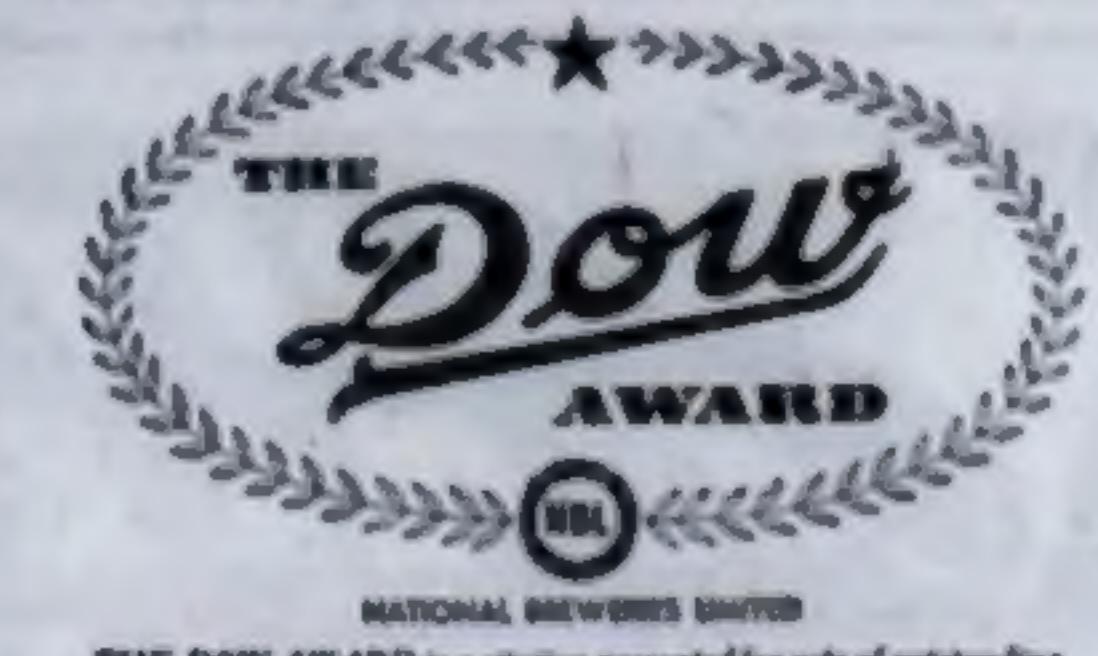

WINS DOW AWARD

GEORGES MARTEL
of Portneuf, Que.,
pulls 78-year-old man to safety

Edouard Frenette, 78, was walking through the yard when a bull charged and tossed him into the air. Landing on his back he was again being attacked when Georges Martel, passing by his truck, stopped and raced to the scene. Without thinking of his own safety, Martel rushed at the bull — shouting and waving his arms. The trick worked . . . and the animal turned away . . . giving Martel time to drag the farmer out of the field.

We are proud to present Georges Martel with The Dow Award.

THE DOW AWARD is a citation presented for acts of outstanding heroism and includes a \$100 Canada Savings Bond. The Dow Award Committee, a group of editors of leading Canadian daily newspapers, selects winners from recommendations made by a nationally known news organization.

DOW BREWERY - MONTREAL

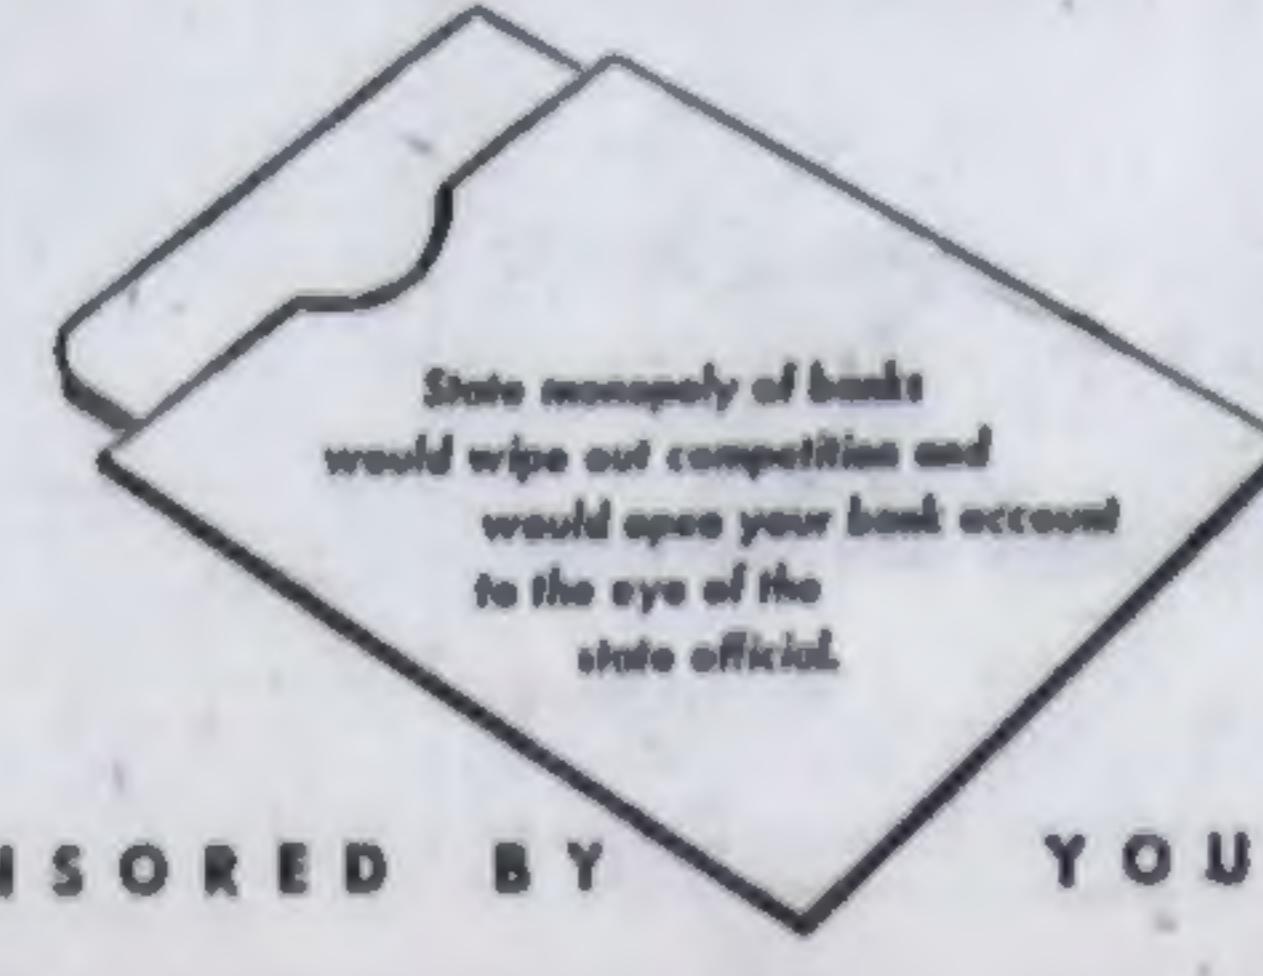

if
every man
were his own bank...

SUPPOSE you had to cart cash around to pay your bills. Pretty risky business. Hard on shoe leather, too.

You don't do it that way, of course. Like everybody else with a bank account — there are seven million of them — you simply get out your pen, write cheques and leave all the bookkeeping to your bank. That's the modern way . . . easy, simple, safe.

Handling and recording your chequing transactions is an important job. Your bank must do it right — or a competing bank will. You'll see to that!

Suppose there were no competition . . . Could you expect the same efficiency, courtesy, eagerness to earn your goodwill?

AUTO RACES**"MOTION PICTURES"**

COMMUNITY HALL, BEAMSVILLE

THURSDAY, MAY 19th, 8:15 P.M.

Review of the highlights of the 1947 Indianapolis Speedway Race, and the French Grand Prix Races.

Your chance to preview Auto Racing similar to the races to be presented by the Beamsville Chamber of Commerce on Saturday, May 28th, at 2 p.m.

This feature 1½ hour show is sponsored by the Scout Mothers of Beamsville.

SPACE DONATED BY BEAMSVILLE DAIRY

**You Have Cooperated Well
Ontario Employers —**

And it looks now as if most of the undergraduates from Ontario universities needing summer employment will be able to find it by the end of the school year.

The situation with regard to permanent jobs for graduates is also promising.

However, MORE summer opportunities STILL are needed for undergraduates and permanent openings for graduates, especially for "Arts graduates" whose training has not fitted them for any particular industry, but who will react quickly to an employer's advantage after brief training on the job.

Through the "clearance system" of the National Employment Service, the Executive and Professional Liaison Officer at your local office can locate a graduate or undergraduate from almost any course you can name, either from within the province or neighbouring provinces.

The curtain has come down on the 1948-49 edition of the Peach Kings, Senior "B" group winners, and Ontario semi-finalists, and in the minds of many, the best Senior "B" team in Ontario to-day. This, of course, is quite a statement in view of the fact that the Kings were eliminated by Peterborough. Why they were has been thoroughly digested previously but the experts still maintain that the Kings had a superior team—when they were rested and ready to give everything they had.

Thursday night at the Village Inn, a banquet was held in honor of the team, wife with their wives and lady friends enjoyed a fine evening, which was featured by numerous presentations. The unanimous selection for the most valuable player award, was Denny Lasson, the sensational young goalie of the Kings. The O.H.A. trophy unfortunately did not arrive on schedule, so the presentation will be made later on. President Harold Harris then called on Normie Warner, who on behalf of the players presented Coach J. R. "Pop" McVicar with a beautiful silver tray.

McVicar's record is a brilliant one as coach of Peach King teams, having brought one Ontario O.H.A. Intermediate "B" championship here, as well as four group championships in 47-48 and 48-49. In 1947-48 "Pop" McVicar's team won the Intermediate "B" and the Intermediate "A" Group Championship, before being booted into Senior "B" competition. This Group was also won by the Kings, and they were semi-finalists for Ontario, being eliminated by Barrie. This past season, of course, the Kings won the tough Senior "B" and were semi-finalists for the Ontario crown.

It was with deep regret that the executive of the Club accepted his resignation as coach. McVicar, however, has accepted a position on the executive, and will be instrumental in welding together a strong entry for the coming year.

Each of the players were handed cheques by Manager Herb Jarvis, who has now signified his intention of continuing as manager for another season. This is a break for the Club, as Herb Jarvis is undoubtedly one of the most able managers in this neck of the woods.

Treasurer Reg Henderson gave the financial report, and this showed the year to have been fairly successful financially although a great deal more of lettuce would have been appreciated by the players that play with the knowledge that a split is all they can expect.

Others called on to speak included Pop McVicar, who stated that it was with regret that business and his own health had forced him to take a less active interest in the Peach Kings. He paid tribute to the men who had played under him, and expressed a desire to see as many of them back next fall as could see their way clear to do so.

President Earl Marsh, of the Niagara Packers, also spoke briefly, and praised the work of the players and executive of this year's great team.

Needless to say, the Club is indeed grateful to the Packers, to whom goes much of the credit for the success or failure of a Grimsby team.

Following the dinner and the brief speeches, a social evening was enjoyed.

Taking a look at the prospects for a good strong Senior team here this coming winter, we respect the words of President Harold Harris, who although a newcomer to the district, has pitched in to do a great job, one that could hardly be matched by any of the oldtimers, who seemed to have lost a certain amount of interest.

Harris had plenty to say about the financial backing of a new Peach King team. The Club will need about five thousand bucks to go out and get the players we need to give the public the team they insist on having. A campaign is about to get started right now, which is being sponsored by the Grimsby Junior Chamber of Commerce. It is hoped that through the sale of tickets on a new car, the Club will be able to raise sufficient money to get players while they are still loose.

The tickets will be twenty-five cents, five for a dollar. This is a fine way for hockey fans to assure themselves of a strong team come this November. In addition to the public interest of the Jays, the Kings are endeavouring to find a suitable young chap to go out and sell out the Province and sell tickets on the Peach King car.

DON'T DELAY - ACT TODAY - ORDER BRAY!

REMINDER re CHICKS

If you haven't already ordered your chicks—or have the space to handle a second lot to advantage—this is just a reminder that you ought to get them going, right away. It's only 5 months to October!

To make the most out of May chicks, you'll want fast-growing, early-developing chicks with loads of vigor and vitality. They've GOT to be that kind to enable you to hit the high markets!

"The Bray Chick does the Trick"

Bray Chicks are famous for these very things—vigor, vitality, fast growth, early full development. Many generations of careful, skilful, consistent selection for both meat type and high egg production have "set the pattern." And Bray's extended list of breeds and crosses gives you wide choice—you'll find what you want in it! Don't delay. Act NOW.

KEEPING up with the times is the responsibility of every Canadian business. The latest addition to our cotton mill units at Magog, Quebec, is an indication of Dominion Textile's appreciation of this fact. Designed on the latest structural plans for such plants, the building is air-conditioned throughout, equipped with fluorescent lighting and the most modern cotton textile machinery. It combines beautiful, pleasant working conditions for the employees with a production efficiency which means more and better cotton goods for Canadian consumers at the lowest possible prices.

STONEY CREEK OPENS

Engineers must first spend many months calculating the needs of the community and designing the layout. Then, many more months are required for the manufacture and installation of the equipment.

Among the parts needed to set up a dial exchange are power equipment, ringing machines, motor or generator sets, a power control board, a test centre, a cable vault, and, above all, the sensitive dial switching equipment.

The latter is the series of switches that goes into operation when a telephone caller lifts the receiver and twists the dial. The switches are called line finders, selectors and connectors.

The line finder goes into operation the instant a receiver is lifted, as the lifting of the receiver closes a switch and energizes the circuit. The line finder is then caused to seek out a "live" line and connect it with the first selector.

When this is done, the dial tone sounds in the receiver, indicating that the equipment is now ready for the caller to start dialling.

If the number being called is, for example, 2145, the subscriber starts by placing the index finger in the hole numbered 2, and turning the dial until the finger comes to rest against the stop. When the finger is removed, a spring returns the dial at a controlled speed to its former position.

As it returns, it sends two electrical impulses to the dial equipment at the exchange. These impulses cause the shaft in the first selector to rise two levels and rotate until it finds a vacant trunk line.

Then as the remaining numbers

are dialed turn the corresponding electrical impulses select the path on the chain to complete the ringing or busy signal is heard.

If the line is live, the ringing tone is started automatically, and it continues until the call is answered or the caller hangs up. If the line is busy the busy signal is automatically turned.

When the receiver is hung up at the end of a conversation, all the switches return instantly to their original positions, and the equipment is ready for its next call.

The dial tone, the ringing tone and the busy signal are all produced by the ringing machine which is connected with the power apparatus.

A special alarm system, which rings when any of the equipment fails, is also connected with the power supply. The power need is direct current, and it is normally supplied by batteries operated by ordinary Hydro power. These charge storage batteries, ensuring adequate power in case of a failure in the Hydro supply.

WILL IMPROVE
ing is held with the Grimsby Water Commission, with whom a meeting is to be asked for this month.

There is little doubt but what this should be an interesting meeting, as the Township Council has been preparing what they consider a very strong case to present to the Commission in an effort to get the Township water-gate lowered.

Building permits were granted to D. Chorowski to erect a fruit stand on No. 8 Highway at a cost of \$500.00, also to Peter Labo, Ridge Road, to erect a one story dwelling to replace one which burned to the ground this past winter. \$7000.00 was given as the estimated cost.

Further permits were granted to Harry Rosebrugh to erect six tourist cabins at Grimsby Beach at an estimated cost of \$1500.00, and to George Crittenden also of Grimsby Beach to erect a \$600.00 frame dwelling on the Park Road. James Ruggi, Ossifield sidered, was granted a permit to erect a one story building at an estimated cost of \$4000.

Boamer Memorial Park came in for considerable debate, with Council passing a motion which will request the Department of Lands and Forests to declare the Park, a tree, flower and game preserve. Council also allocated the sum of \$200.00 to Boamer Memorial Park, and decided that \$50.00 be spent on steel posts and fencing immediately.

A few miscellaneous matters were given the once over by Council, with nothing concrete being released to the press. Meeting adjourned at 10:30.

AN ALL-TIME RECORD

In 1933 in Manchuria, the number of train holdups on the Trans-Siberian Railway undoubtedly set an all-time record. During the first six months of that year in Peking Province alone, 4,874 trains—or an average of 187 a week—were held up, and 8,220 passengers and bandits—or an average of 225 a week—were killed, wounded, kidnapped or captured.
